<b># of LEED Canada projects</b>	<b>280</b>

Note: LEED-BC projects are not included due to a slight difference in requirements and EAc1 scoring

Note that the percentage achieve represents the average of how many projects achieved that score in the appropriate rating level. For EAc1, the percent can also be used to generate average score for this credit; i.e., 50% of 10 EAc1 points would be an average score of 5 points.
