

LEED for Neighbourhood Development Registered Pilot Projects and Plans List (by project location) - updated June 27, 2011

The USGBC conducted a LEED for Neighbourhood Development pilot, which opened in 2007 with nearly 240 projects participating. The LEED for Neighbourhood Development pilot is no longer open to new projects. A number of Canadian projects participated in the pilot and have informed the development of Canadian equivalencies for the rating system. The CaGBC will not be conducting a separate Canadian LEED for Neighbourhood Development pilot.
