

GREEN JOBS 101: 2017 Speaker List

Keynote Speaker

Mark Lucuik, P.Eng., LEED Fellow

Principal, Director of Sustainability, Morrison Hershfield Consulting Engineers

Mark has been involved in the field of sustainability since the early 1990's and is extensively involved with the Canada Green Building Council and LEED. He is a practicing engineer with specialized knowledge in the fields of durability, building science and embodied environmental material effects, in addition to his experience with LEED.

Mark is a firm believer in the benefits of green construction and demonstrates these beliefs by considering environmental effects in all professional and personal decisions. He lives in a LEED Platinum home and has won the national volunteer leadership award from the Canada Green Building Council in 2015 and a national engineering award for charity work for the Shepherd's of Good Hope in 2000.

Morrison Hershfield is a multidisciplinary North American engineering and management firm, providing services within the Transportation, Building, Municipal, Utilities and Telecommunications sectors.

List of Speed Dating Speakers

Graeme Cunningham

Bull Frog Power

Graeme is a Sales Manager with Bullfrog Power, Canada's leading green energy provider. Graeme works with Bullfrog Power's commercial customers in Eastern Ontario and Québec, helping them achieve their GHG emissions targets and meet other sustainability-related objectives with clean, pollution-free energy. With a Masters in Biochemistry from the University of Ottawa, Graeme has long history working with non-profit and community-focused organizations in the Ottawa area, including with the Ottawa Chamber of Commerce, where he serves as the vice-chair of the Environment and Sustainability Committee.

Bridget O'Flaherty

EnviroCentre & Algonquin College

Bridget is an experienced Energy Advisor for new housing and sits on the advisory board for Algonquin College's Advanced Housing Program. She works for Enviro Centre and is an instructor at Algonquin College's Building Science program. She has over 11 years experience working in the building industry.

Shyam Ramrekha

Underwriters Laboratories

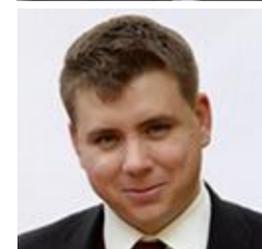

Shyam is the Senior Bilingual Program Manager & Site Manager for Underwriters Laboratories of Canada Environmental Department. He is a Professional Project Manager and manages the ECOLOGO Program and other UL Environmental service offerings such as GREENGUARD and EPD's in Canada. Shyam has over 14 years experience working in sustainability.

Michael Flowers

WSP Canada

Michael is a Municipal Engineer for WSP Canada. He has been actively involved in green building and sustainability for that last 5 years and is currently the Chair of the Canada Green Building Council's Ottawa Chapter Leadership Board. His experience is primarily in pre-engineering, research, and municipal engineering design and construction.

Michelle Maybee

Maybee Engineering & Design Ltd

Michelle is the owner and principal of Maybee Engineering & Design Ltd. She has over 15 years experience working as a Professional Engineer in the building industry. Over the past 6 years she has worked with the Canadian Wood Council promoting the use of wood in construction by raising the awareness of the benefits of building with wood and by providing technical training and education to the design community.

Jonathan Rausseo

University of Ottawa

Jonathan is the Campus Sustainability Manager at University of Ottawa. He has been instrumental in helping the university to break new grounds in sustainable development and is responsible for engagement of both staff and students. He has a background in Environmental Sciences, with concentrations in Ecotoxicology and Environmental geochemistry.

Carl-Peter Reinecke

Bautechnik

Peter is the owner and Managing Director of Bautechnik. He is a Master Rammed Earth Builder and an Environmental Economist. Peter has been working in Sustainable Design and Building Science for over 14 years.

Sundeep Virdi

Canada Green Building Council

Sundeep Virdi, Manager, Advocacy & Policy, Canada Green Building Council, is leading the implementation of the CaGBC Advocacy Strategy, focusing on energy reporting and benchmarking; green building policy; health, wellness and productivity; and national and international market development. She also sits on the board for the Ottawa EnviroCentre. She holds a degree in Environmental Management and a Master's degree in Environmental Studies.

Fin MacDonald

Morrison Hershfield Ltd

Fin is a Sustainability Analyst with Morrison Hershfield Ltd. He is a LEED Accredited Professional specializing in the operations and maintenance of existing buildings as well as performing greenhouse gas (GHG) inventory quantification and verification. He has a background in business and an Honors Diploma in Energy Sustainability Engineering Technology.

Farr Fatemi

The Delphi Group

Farr is a Technical Analyst with The Delphi Group, a Canadian strategic consultancy providing innovative solutions in the areas of climate change and corporate sustainability. In his current role, Farr's responsibilities include quantifying GHG and CAC emissions and other environmental impacts for clients from various sectors including real estate, oil and gas, manufacturing and retail. Farr holds a masters' degree in chemical engineering focused on life cycle assessment (LCA).

Sheila Brown

LEED Consultant

Sheila is a LEED AP with a specialty in design and construction. She has contributed to the development of many of the LEED Canada tools, including LEED Canada 2009 and LEED for Commercial Interiors. She is also vice chair of the CaGBC's Materials Technical Advisory Group.

Sheila has presented at numerous conferences on topics associated with sustainable buildings and has worked with government organizations to integrate sustainable building criteria and asset management into project delivery processes.

Mitch Lalonde

M.P. Lundy Construction

Mitch is currently an Assistant Site Superintendent with M.P. Lundy Construction. He has worked on a number of commercial construction projects in the Ottawa area in charge of field operations and on site logistics. He has recently worked on a LEED Silver project and obtained his LEED Green Associate certification through the Ottawa Chapter. Mitch holds a bachelor degree in Construction Science and Management obtained at George Brown College.

Andrew Van Seggelen

PCL

Andrew joined PCL upon completion of university. He has served in field engineering and coordination capacities for structural, envelope and finishing work scopes on complex major restoration projects with PCL, and has developed a keen eye for "making things work." He has developed expertise in historic restoration scopes and new construction methods which, with his open and collaborative approach to challenges, makes him an invaluable part of any construction team. Andrew is currently working as a project manager on the West Block renovation project, leading the mechanical and electrical team. He also serves as the sustainability construction advisor for the Ottawa District projects and individuals.

A big thank you to this year's sponsor:
