

WELL Workshop: Understanding the WELL Building Standard®

DELIVERY: WORKSHOP | **DURATION:** 1 DAY | **COST:** FROM \$599 | **CREDITS:** 6 GBCI CE HOURS / 6 AIA LU/HSW

OUR BUILT ENVIRONMENT HAS A PROFOUND IMPACT ON OUR HEALTH, WELLBEING, HAPPINESS AND PRODUCTIVITY. In the design and development industry, owners, designers and builders expect health to have a higher influence on design and construction decisions. This workshop will introduce the intent, key elements, and requirements of the WELL Building Standard which can generate increased savings and productivity, in addition to a meaningful return on investment to the tenant and building owner.

Who should take this course?

WELL Workshops are designed to support professionals as they prepare for the WELL AP exam. This course will appeal to architects, building owners, building envelope consultants, commissioning authorities, design consultants.

Course Highlights

This full-day intensive workshop will cover how a WELL Certified™ project has the potential to add measurable value to the health, wellbeing and happiness of building occupants. WELL Faculty will guide attendees through the standard's design, implementation, and certification requirements.

Learning Objectives

The WELL Building Standard supports the industry in comprehensively addressing human health. Upon completion of this course participants will be able to:

- » Identify the purpose, key components, and structure of the WELL Building Standard
- » Discuss the health basis for the Concepts and Features of the WELL Building Standard
- » Understand successful strategies for meeting the requirements of the WELL Features
- » Learn about WELL resources and how to become a WELL Accredited Professional

Included Materials:

- » WELL Building Standard (download in advance for reference during the workshop)
- » WELL Certification Guidebooks

WHY CaGBC?

CaGBC is a proven training expert in the field of green building, with thousands of individuals having taken CaGBC education. Our courses provide current and relevant information, while our faculty are carefully selected experts with practical industry experience who are able to provide in-depth knowledge and real-life examples.
