

WORKSHOP

Green Associate Exam Kickstarter Course

DURATION: 1 DAY

Course Highlights

Earn the Internationally recognized LEED® v4 Green Associate credential to equip yourself with important foundational information on green building principles and practices. Delivered by highly-qualified instructors with real-life local and regional experience, this course will provide you with valuable knowledge and give you access to quality study tools. Network with, and learn from, other individuals with similar goals, as you learn what you need to know to pass the Green Associate Exam.

This one day intense workshop covers the information necessary to successfully prepare for the LEED® Green Associate exam including the various LEED® rating systems, categories and minimum program requirements. It also covers the LEED® certification process, the intent of LEED® prerequisites and credits and studying tips and exam writing skills. The in-class portion of this course provides participants with foundational information which will be followed up with a study plan to help maximize the information you have learned, including reference material and study resources.

Included Materials

CaGBC provides your with a number of comprehensive study materials to help you prepare for the exam, including:

- » Hardcopy of presentation slides
- » Participant book with course activities and additional notes
- » CaGBC LEED v4 Study Guide (PDF)
- » 101 Practice Questions and Answers (PDF)
- » 50 Practice Questions and Answers (PDF)
- » 400 online practice questions (access for 90 days)

Upon completion of this course, participants will be able to:

- » Explain the various LEED® rating systems, categories and minimum program requirements;
- » Describe the LEED® certification process (organizations, structure of rating systems, certification process etc.);
- » Discuss a number of the intents and general strategies of the numerous LEED® v4 BD+C credits and prerequisites;
- » Differentiate between many of the referenced standards used by LEED®, such as ASHRAE Standard 90.1-2010, Green-e Energy product certification, and the California Department of Public Health Standard Method v1.1-2010;
- » Recognize synergies between the various LEED® credits;
- » Identify: numerous green building strategies for the credit categories

I WILL LEARN WITH CaGBC EDUCATION
